Dear Customer,

Please fill in the model and serial numbers above from the label on the tube below the footrest.

**Thank you for purchasing
this Graco® stroller!**

Graco is the recognized leader in the design and manufacture of quality baby products. We believe your new Graco stroller is a wise choice, promising many hours of enjoyment for your baby.

Before using your stroller, please take a few minutes to read this Owner's Manual. The short time you spend reading these instructions will help you use your stroller properly.

Cher Client,

Veuillez inscrire ci-haut les numéros de modèle et de série que vous trouverez sur l'étiquette sur le tube sous le repose-pied.

**Merci de votre achat d'une
poussette Graco®!**

Graco est le chef de file dans la conception et la fabrication de produits de qualité pour bébé. Nous croyons que votre poussette Graco est un choix judicieux, garantissant plusieurs heures de plaisir pour votre bébé.

Avant d'utiliser la poussette, prenez quelques minutes pour lire le manuel d'utilisateur. Ce court instant que vous prendrez à lire les instructions vous aidera à utiliser correctement la poussette.

Estimado cliente,

Complete los números de modelo y de serie arriba indicados, de la etiqueta en el tubo debajo del reposapiés.

**¡Gracias por comprar este
cochecito Graco®!**

Graco es el líder reconocido en el diseño y fabricación de productos infantiles de calidad. Creemos que su cochecito Graco es una compra acertada y ofrecerá a su bebé muchas horas de placer.

Antes de usar su cochecito, dedique unos minutos a leer este manual del propietario. El poco tiempo que emplee en leer estas instrucciones le ayudará a utilizar su cochecito de manera correcta.

WARNING

Failure to follow these warnings and the assembly instructions could result in serious injury or death.

- **NEVER LEAVE** child unattended. Always keep child in view while in stroller.
- **AVOID FINGER ENTRAPMENT:** Use care when folding and unfolding the stroller. Be certain the stroller is fully erected and latched before allowing your child near the stroller.
- **NEVER USE STROLLER ON STAIRS** or escalators. You may suddenly lose control of the stroller or your child may fall out. Also, use extra care when going up or down a step or curb.
- **AVOID STRANGULATION.** DO NOT place items with a string around your child's neck, suspend strings from this product, or attach strings to toys.
- **USE OF THE STROLLER** with a child weighing more than 40 lbs (18.1 kg) or taller than 43 in (109 cm) will cause excessive wear and stress on the stroller. Use the stroller with only one child at a time.
- **TO PREVENT A HAZARDOUS CONDITION,** do not place more than 10 lbs (4.5 kg) in the storage basket. DO NOT use storage basket as a child carrier.
- **DO NOT ALLOW** your child to stand on the basket. It may collapse and cause injury.
- **DO NOT PLACE PURSES,** shopping bags, parcels and accessory items on handle or canopy. They may fall on the child or change the balance of the stroller and make it unstable.

MISE EN GARDE

Manquer de suivre ces avertissements et les instructions d'assemblage peut entraîner de sérieuses blessures ou un décès.

- **NE LAISSEZ JAMAIS** votre enfant sans surveillance. Ayez toujours l'enfant en vue.
- **EVITER DE COINÇER LES DOIGTS:** Plier ou déplier la poussette avec soin. Soyez assuré(e) que la poussette est bien droite et que les loquets sont bien enclenchés avant de laisser votre enfant près de la poussette.
- **NE JAMAIS UTILISER LA POUSSETTE SUR LES ESCALIERS** ou les escaliers roulants. L'enfant pourrait tomber ou vous pourriez perdre le contrôle de la poussette. Aussi, soyez très prudent lorsque que vous montez et descendez une marche ou le bord du trottoir.
- **ÉVITEZ D'ÉTRANGLEMENT.** NE JAMAIS accrocher des objets avec ficelles autour du cou de votre enfant, suspendre des ficelles au-dessus de ce produit, ou attacher des jouets à des ficelles.
- **L'USAGE DE LA POUSSETTE** avec un enfant pesant plus de 40 lb (18,1 kg) ou mesure plus de 43 po (109 cm) occasionnera une usure et une tension excessive à la poussette. Utilisez la poussette avec seulement un enfant à la fois.
- **POUR ÉVITER DES CONDITIONS HASARDEUSES,** ne placez jamais plus de 10 lb (4,5 kg) dans le panier. NE PAS utiliser le panier comme porte-bébé.
- **NE LAISSEZ PAS** votre enfant debout sur le panier. Il pourrait s'écrouler et causer des blessures.
- **NE PAS PLACER LES SACS À MAINS,** les sacs de magasinage, accessoires et colis sur le guidon ou le baldaquin. Ils risquent de tomber sur l'enfant ou de rendre la poussette instable.

ADVERTENCIA

Si no se obedecen estas advertencias y se siguen las instrucciones de montaje, podría resultar en lesiones graves o la muerte.

- **NUNCA DEJE** a su niño desatendido. Siempre tenga su niño a la vista.
- **EVITE APRETARSE LOS DEDOS:** Use cuidado cuando abre y cierra el cochecito. Asegúrese de que el cochecito esté totalmente montado y estable antes de que su niño esté se acerque al cochecito.
- **NUNCA USE EL COCHECITO EN LAS ESCALINATAS** o las escaleras mecánicas. Usted puede perder súbitamente el control del cochecito, o su niño podrá caerse. Asimismo, tenga cuidado especial cuando suba o baje un escalón o la calzada.
- **EVITE LA ESTRANGULACIÓN.** NO coloque artículos con cuerdas alrededor del cuello del niño, o suspenda cuerdas del cochecito, o coloque cordones en los juguetes.
- **SI USA EL COCHECITO** para un niño que pese más de 40 libras (18,1 kg) o más alto que 43 pulgadas (109 cm) causará desgaste y tensión excesiva en el cochecito. Empléelo solamente con un niño a la vez.
- **PARA PREVENIR UNA SITUACIÓN PELIGROSA,** no coloque más de 10 libras (4,5 kg) en la canasta. NO USE dicha canasta para transportar el niño.
- **NO DEJE QUE** su niño se pare en la canasta. Puede desmoronarse y causar daño.
- **NO PONGA CARTERAS,** bolsas, paquetes o accesorios en la manija o la capota. Pueden caerle encima al niño, o desequilibrar el cochecito y hacerlo inestable.

WARNING

- **NEVER PLACE** child in the stroller with head toward front of stroller.
- **NEVER ALLOW YOUR STROLLER** to be used as a toy.
- **STROLLER TO BE USED** only at walking speed. Product not intended for use while jogging, skating, etc.
- **DISCONTINUE USING YOUR STROLLER** should it become damaged or broken.

MISE EN GARDE

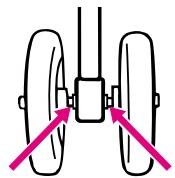

- **NE JAMAIS PLACER** l'enfant dans la poussette avec la tête vers l'avant de la poussette.
- **NE JAMAIS UTILISER LA POUSSETTE** comme un jouet.
- **LA POUSSETTE DOIT ÊTRE UTILISÉE** pour la marche seulement. Ce produit n'est pas conçu pour usage pendant la course à pied, pour patiner, etc.
- **CESSEZ L'USAGE DE VOTRE POUSSETTE** si elle devient endommagée ou brisée.

ADVERTENCIA

- **NUNCA COLOQUE** el niño en el cochecito con la cabeza en la delantera parte del cochecito.
- **NUNCA DEJE QUE EL COCHECITO** sea usado como juguete.
- **EL COCHECITO DEBE SER USADO** solamente a velocidad de caminar. El producto no está destinado para usarlo mientras está corriendo, patinando, etc.
- **PARE DE USAR EL COCHECITO** si éste se daña o se quiebra.

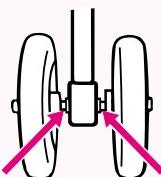

Care and Maintenance

- **REMOVABLE SEAT** may be machine washed in cold water on delicate cycle and drip-dried. NO BLEACH.
- **TO CLEAN STROLLER FRAME**, use only household soap and warm water. NO BLEACH or detergent.
- **FROM TIME TO TIME CHECK YOUR STROLLER** for loose screws, worn parts, torn material or stitching. Replace or repair the parts as needed. Use only Graco replacement parts.
- **EXCESSIVE EXPOSURE TO SUN OR HEAT** could cause fading or warping of parts.
- **IF STROLLER BECOMES WET**, open canopy and allow to dry thoroughly before storing.
- **IF WHEEL SQUEAKS**, use a light oil (e.g., WD-40, 3-in-1, or sewing machine oil). It is important to get the oil into the axle and wheel assembly as illustrated.
- **WHEN USING YOUR STROLLER AT THE BEACH** completely clean your stroller afterward to remove sand and salt from mechanisms and wheel assemblies.

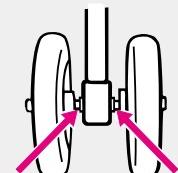

Soins et entretien

- **LE SIÈGE AMOVIBLE** est lavable à la machine à l'eau froide et au cycle délicat. Étendre pour sécher. PAS D'EAU DE JAVEL.
- **POUR NETTOYER L'ARMATURE DE LA POUSSETTE**, utilisez un savon de ménage et de l'eau tiède. PAS D'EAU DE JAVEL ou détergent.
- **DE TEMPS EN TEMPS, VÉRIFIEZ VOTRE POUSSETTE** pour des vis desserrées, pièces usagées, tissu ou couture déchiré. Remplacez ou réparez ces pièces si nécessaire. Utilisez seulement les pièces de remplacement Graco.
- **UNE EXPOSITION PROLONGÉE AU SOLEIL** peut provoquer une décoloration prématûre du tissu et du plastique.
- **SI LA POUSSETTE EST MOUILLÉE**, ouvrez le baldaquin et laissez sécher complètement avant l'entreposage.
- **SI LES ROUES GRINCENT**, utilisez une huile légère (i.e. WD-40, 3 dans 1, ou bien une huile pour machine à coudre). Il est important de déposer l'huile dans l'essieu de la roue.
- **LORSQUE VOUS UTILISEZ VOTRE POUSSETTE À LA PLAGE**, prenez soin de bien la nettoyer après l'usage afin d'enlever le sable et le sel du mécanisme et des roues.

Cuidado y mantenimiento

- **EL ASIENTO REMOVIBLE** puede lavarse a máquina en agua fria en el ciclo delicado y secarse al aire. NO USE CLORO.
- **PARA LIMPIAR EL ARMAZÓN DEL COCHECITO:** usar solamente jabón de uso doméstico y agua tibia. NO USE CLORO o detergente.
- **DE VEZ EN CUANDO, INSPECCIONE EL COCHECITO** para determinar si hay tornillos flojos, piezas gastadas, material o costuras rotas. Cambie o repare las piezas según sea necesario. Use solamente repuestos marca Graco.
- **EL CONTACTO EXCESIVO CON EL SOL** o el calor podría causar que se destiña o se tuerzan algunas piezas.
- **SI EL COCHECITO SE MOJA**, abra la capota y déjelo secar completamente antes de guardarlo.
- **SI LAS RUEDAS HACEN RUIDO**, use un aceite liviano (por ej., WD-40, 3-en-1, o aceite para máquinas de coser). Es importante hacer penetrar el aceite en el eje y equipo de la rueda como se ilustra.
- **CUANDO USA EL COCHECITO EN LA PLAYA**, limpíe el cochecito completamente después para sacar la arena y la sal de los mecanismos y equipos de las ruedas.

Child's Tray

Le plateau pour enfant

La bandeja del niño

Parent's Tray and Fold Mechanism

The parent's tray includes the mechanism for folding the stroller. You should locate the following parts before attaching it: **Tabs** on each end secure the tray to the stroller handle. The **release button** and **grip** are the parts you will use to do the folding. **Plastic straps** will be hidden, but they actually fold the stroller.

Le plateau pour adulte et le mécanisme pour pliage

Le plateau pour parent inclut le mécanisme pour plier la poussette. Vous devriez localiser les pièces suivantes avant de l'attacher: Les **onglets** sur chaque extrémité fixent le plateau au guidon de la poussette. Le **bouton de dégagement** et **l'empoigne** sont les pièces que vous utiliserez pour plier. Les **courroies de plastique** seront cachées, mais elles sont en fait utiliser pour plier la poussette.

La bandeja para padres y el mecanismo de plegar

La bandeja para padres incluye el mecanismo para plegar el cochecito. Debe ubicar las piezas siguientes antes de conectarla: Las **lengüetas** de cada lado conectan la bandeja a la manija del cochecito. Usará el **botón** y la **empuñadura** para plegar el cochecito. Las **correas de plástico** se mantendrán ocultas, pero ayudarán a cerrar el cochecito.

Empuñadura

⚠WARNING To avoid burns, never put hot liquids in the parent's tray. To prevent tipping, do not place more than 2 lbs (0.9 kg) on the parent's tray.

⚠MISE EN GARDE Pour éviter les brûlures, ne jamais mettre de liquides brûlants dans ce plateau. Pour ne pas déséquilibrer la poussette, ne pas charger le plateau à plus de 2 lb (0,9 kg).

⚠ADVERTENCIA Para evitar quemaduras, nunca ponga líquidos calientes sobre la bandeja. Para evitar volcamientos, no ponga mas de 2 libras (0,9 kg) sobre la bandeja.

15

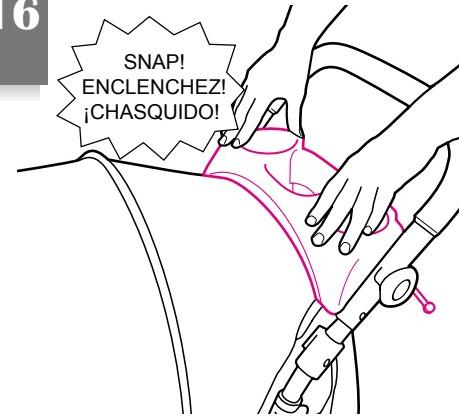

Plastic straps must be to the rear.

Les courroies de plastique doivent être à l'arrière.

Las correas de plástico deben estar en la parte trasera.

16

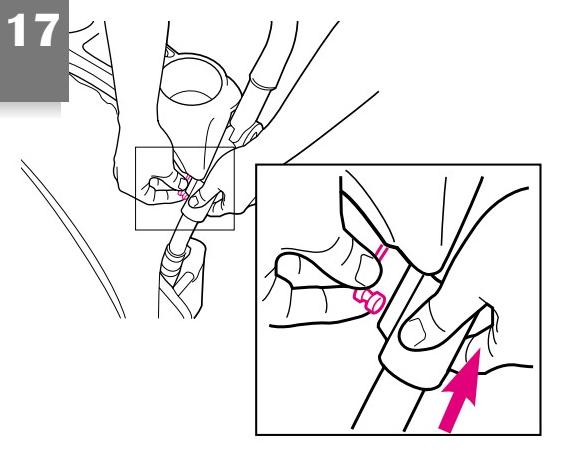

Check that parent's tray is securely attached by pulling up on parent's tray.

Assurez-vous que le plateau pour parent est bien attaché en tirant fort sur le plateau.

Verifique que la bandeja para padres esté bien conectada, tirando de la misma hacia arriba.

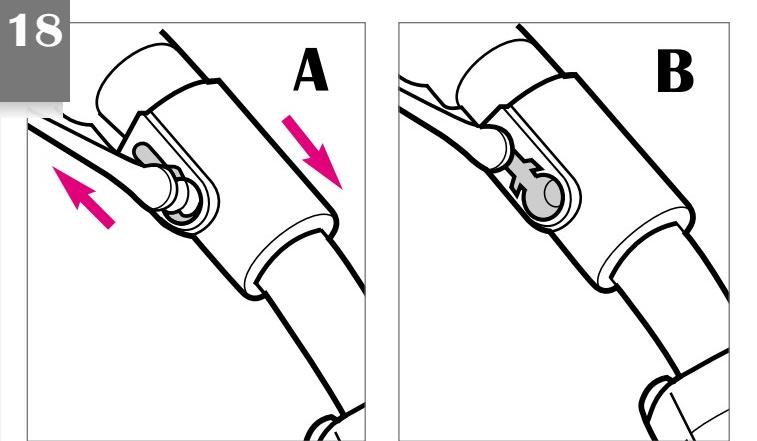

17

Pull up sliding sleeves on stroller handle and insert ends of plastic straps. Slide sleeves back down and pull plastic straps all the way up as in figure 18B; do NOT leave straps as shown in 18A.

Attaching plastic straps may unlatch stroller. **Check that stroller is all the way open before continuing.**

18

Remontez les pochettes coulissantes sur le guidon de la poussette et insérez les extrémités des courroies de plastique. Glissez les pochettes et remontez les courroies de plastique jusqu'en haut tel qu'illustré sur 18B; ne PAS laissez les courroies tel qu'illustré sur 18A.

En attachant les courroies de plastique, vous risquez de déverrouiller la poussette. **Vérifiez que la poussette est ouverte complètement avant de continuer.**

Tire hacia arriba los manguitos deslizantes de la manija del cochecito e inserte los extremos de las correas de plástico. Deslice los manguitos hacia abajo y tire las cintas de plástico hacia arriba todo lo posible como se indica en la figura 18B; NO deje las correas como se indica en la figura 18A.

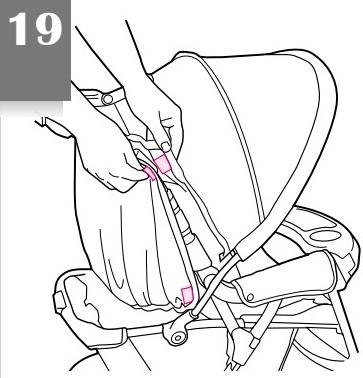

La conexión de las correas de plástico puede desenganchar el cochecito. **Verifique que el cochecito esté completamente abierto antes de continuar.**

To Secure Canopy

To Use Brakes

Pour utiliser les freins

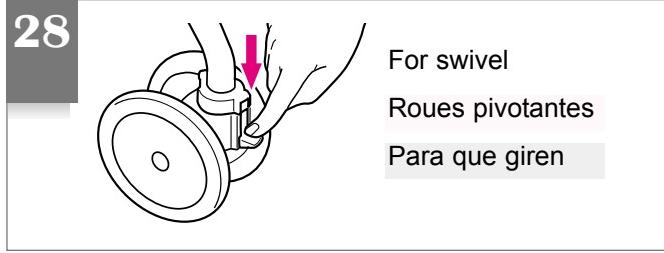

Para usar los frenos

WARNING Always apply both brakes. Check brakes by trying to push stroller.

MISE EN GARDE Toujours utiliser les deux freins. Vérifiez les freins en essayant de pousser la poussette.

ADVERTENCIA Siempre use ambos frenos. Inspeccione los frenos tratando de empujar el cochecito.

Swivel Wheels

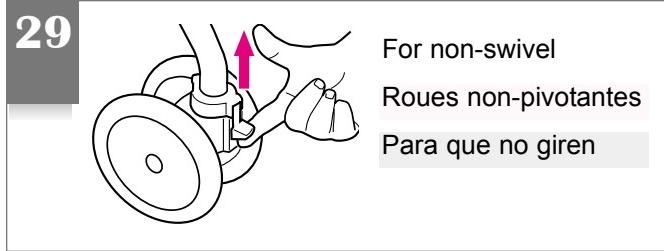

Les roues pivotantes

Las ruedas giratorias

Front swivel wheels lock for use on uneven surfaces such as grass, stones or gravel. Before locking swivels, check that wheels are positioned correctly by pushing the stroller forward a few feet.

Les roues pivotantes avant se barrent pour un usage sur les surfaces irrégulières tel que le gazon, les cailloux ou le gravier. Avant de verrouiller les pivots, vérifiez que les roues sont placées correctement en poussant la poussette de quelques pieds.

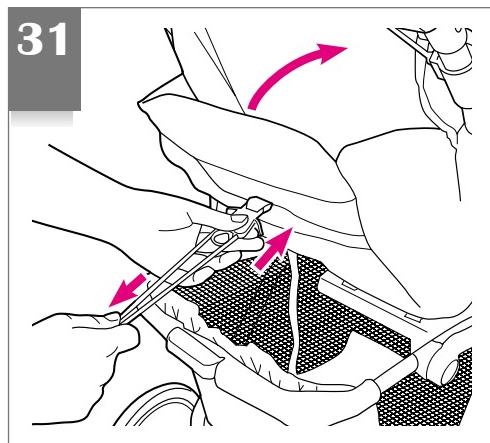

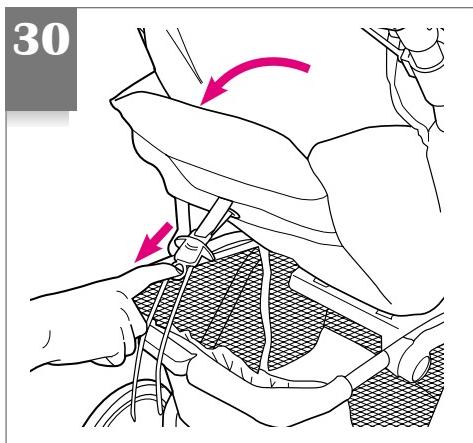

Las ruedas giratorias delanteras se traban para el uso en superficies desparejas tales como césped, piedras o grava. Antes de trabar las ruedas giratorias, verifique que las ruedas estén correctamente colocadas empujando el cochecito hacia delante unos pocos pies.

To Recline Seat

Pour incliner le siège

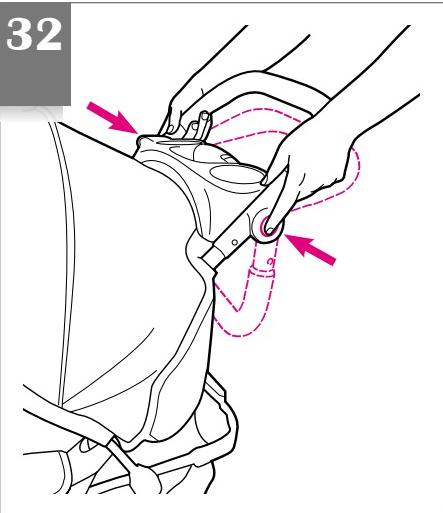

Para reclinar el asiento

To Adjust Handle

Pour ajuster le guidon

Para ajustar la manija

32

Choose from three handle positions or flip all the way down for storage.

Choisissez une des trois positions du guidon ou abaissez complètement pour le rangement.

Elija una de las tres posiciones para la manija o bájela completamente para almacenar.

To Fold Stroller

Before folding stroller: 1) lock front swivel wheels, 2) adjust seat back to upright position and 3) apply brakes. You may also want to lower handle out of the way.

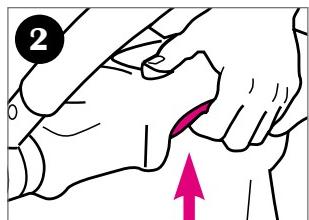

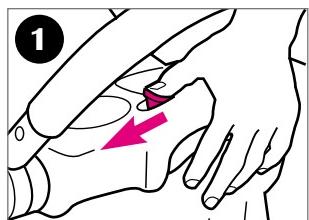

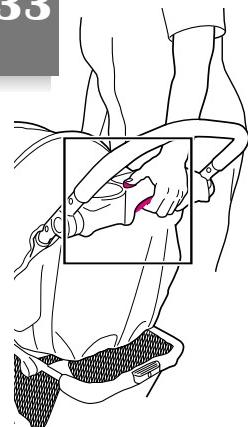

Plier la poussette

Avant de replier la poussette :
1) verrouillez les roues pivotantes,
2) ajustez le dossier à la position
assise et 3) appliquez les freins.
Peut être que vous voudrez aussi
abaisser le guidon.

Para plegar el cochecito

Antes de plegar el cochecito:
1) Trabe las ruedas giratorias
delanteras, 2) coloque el respaldo
del asiento en posición vertical y
3) aplique los frenos. También puede
bajar la manija.

33

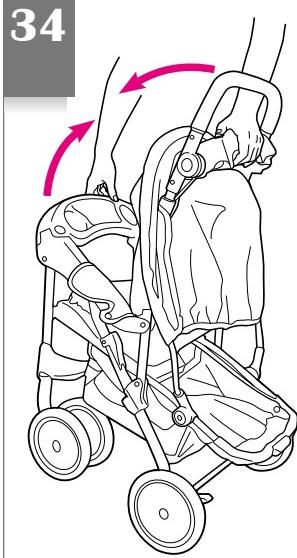

First push release button,
then squeeze grip.

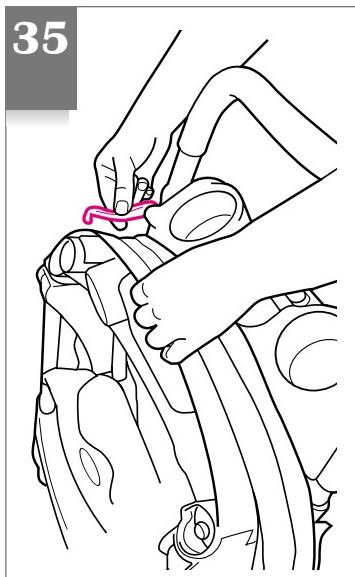

Premièrement pressez le bouton de
dégagement et ensuite serrez l'empoigne.

Primero, apriete el botón de soltar y luego
apriete la empuñadura.

34

35

To Attach Graco® Infant Carrier (sold separately)

⚠WARNING Improper use of this stroller with a carrier may result in serious injury or death. **Use a Graco infant carrier only.** Read the manual provided with your Graco carrier before using it with your stroller. If you do not have the owner's manual for the Graco carrier, call Graco in the USA at 1-888-224-6549 or in Canada at 1-800-667-8184. Make sure stroller is fully assembled according to the preceding instructions.

⚠WARNING Always secure your child with the carrier harness when using the carrier in the stroller. If your child is already in the carrier, **check that the child is secured with the harness.**

Attacher le porte-bébé Graco® (vendu séparément)

⚠MISE EN GARDE Un usage inadéquat de cette poussette avec le porte-bébé peut causer de sérieuses blessures ou la mort. **Utilisez seulement un porte-bébé de Graco.** Lisez le manuel d'utilisateur fournit avec votre porte-bébé Graco avant d'utiliser le porte-bébé avec votre poussette. Si vous n'avez pas le manuel d'utilisateur pour le porte-bébé Graco, communiquer avec Graco au 1-888-224-6549 aux Etats-Unis ou au 1-800-667-8184 au Canada. Assurez-vous que la poussette est complètement assemblée d'après les instructions précédentes.

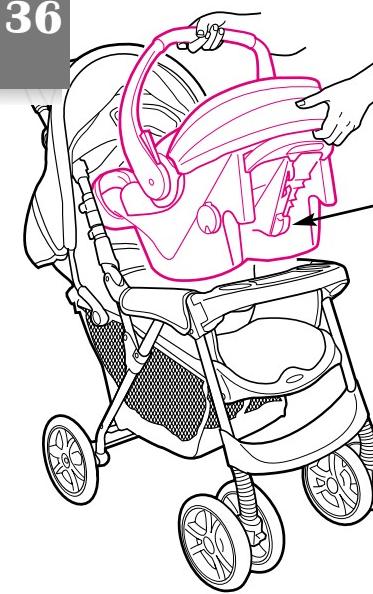

⚠ MISE EN GARDE Toujours attaché votre enfant avec le harnais du porte-bébé quand vous utilisez le porte-bébé avec la poussette. Si votre enfant est déjà dans le porte-bébé, **assurez-vous que l'enfant est attaché avec le harnais.**

Instalación del transportador Graco® (vendido por separado)

⚠ADVERTENCIA El uso indebido de este cochecito con un transportador podrá resultar en lesiones serias o la muerte. **Use un transportador para bebés Graco solamente.** Lea el manual provisto con su transportador Graco antes de usarlo con su cochecito. Si no tiene el manual del propietario del transportador Graco, llame a Graco en EE.UU. al 1-888-224-6549 o en el Canadá al 1-800-667-8184. Asegúrese que el cochecito esté totalmente armado según las instrucciones anteriores.

⚠ADVERTENCIA Asegure siempre a su bebé con el arnés del transportador cuando usa el transportador en el cochecito. Si su niño ya se encuentra en el transportador, **verifique que el niño esté asegurado con el arnés.**

36

Attachment latch
Loquet de sûreté de l'attachement
Traba de seguridad

- Recline the stroller seat back to its lowest position. Fold the canopy.
- Check that child's tray is securely attached by pulling on the tray.
- Move carrier handle to carrying position.
- Position mounting notches over tray. Push down on carrier until the attachment latch snaps into tray.

Continued next page...

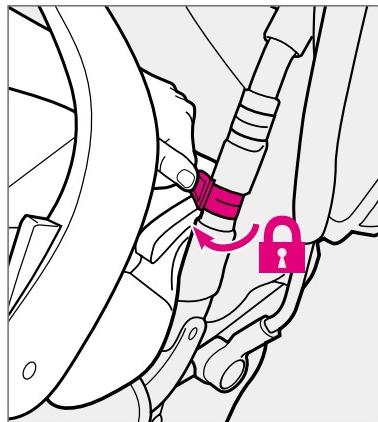

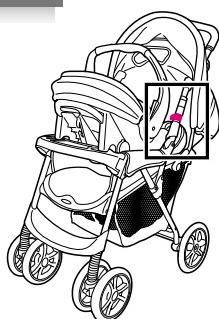

- Incliner le siège de la poussette en position la plus basse. Pliez le baldaquin.
- Assurez-vous que le plateau pour enfant est bien attaché en tirant sur le plateau.
- Déplacez la poignée en position de transport.
- Placez les encoches du montant sur le plateau. Abaissez le porte-bébé jusqu'à ce que le loquet de sûreté de l'attachement s'enclenche dans le plateau.

Suite au verso...

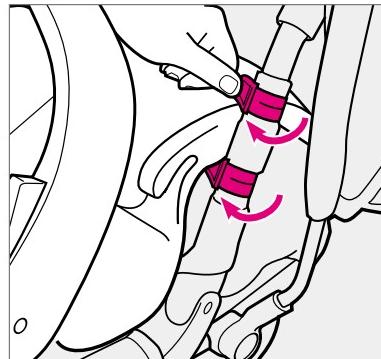

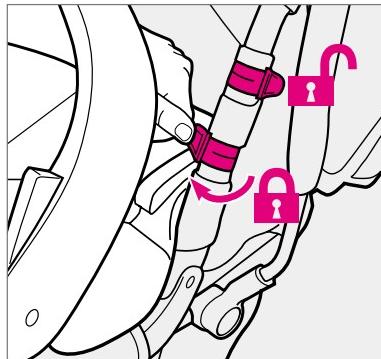

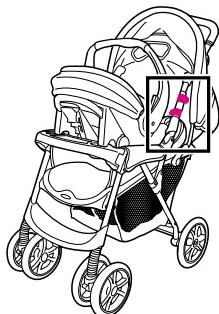

- Recline el asiento del cochecito hacia atrás hasta la posición más baja. Pliegue la capota.
- Verifique que la bandeja para niño esté conectada bien tirando.
- Mueva la manija del transportador a la posición para el transporte.
- Coloque las ranuras de montaje sobre la bandeja. Empuje hacia abajo el transportador hasta que se trabe en la bandeja.

Continuación en la página siguiente...

37

- Push carrier down so it is below latches on stroller handle as shown. **Turn and lock latches. ALWAYS LOCK LATCHES OVER CARRIER.**
- Check that carrier is securely attached by pulling up on the carrier handle.**
- Appuyez sur le porte-bébé vers le bas pour qu'il soit en-dessous des loquets de sûreté sur le guidon de la poussette comme illustré. **Tournez et verrouillez les loquets de sûreté. TOUJOURS VERROUILLEZ LES LOQUETS DE SÛRETÉ AU-DESSUS DU PORTE-BÉBÉ.**
- Assurez-vous que le porte-bébé est attaché solidement en tirant sur le guidon du porte-bébé.
- Empuje el transportador hacia abajo de manera que esté por debajo de las trabas de la manija del cochecito como se muestra. **Gire y trabe las trabas. TRABE SIEMPRE LAS TRABAS SOBRE EL TRANSPORTADOR.**
- Verifique que el transportador esté conectado con firmeza tirando hacia arriba de la manija del transportador.

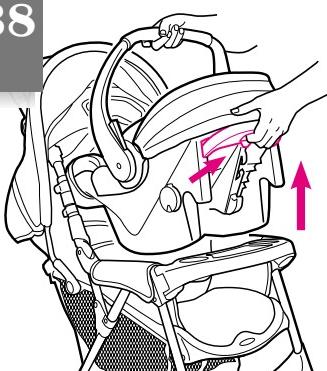

Certain models have two sets of latches, to allow for two recline positions. The carrier can be positioned below the bottom latch or between the two latches. **ALWAYS LOCK LATCHES OVER CARRIER.**

Certains modèles ont deux jeux de loquets, permettant deux positions d'inclinaison. Le porte-bébé peut être placé en dessous du loquet inférieur ou entre les deux loquets. **TOUJOURS VERROUILLEZ LES LOQUETS DE SÛRETÉ AU-DESSUS DU PORTE-BÉBÉ.**

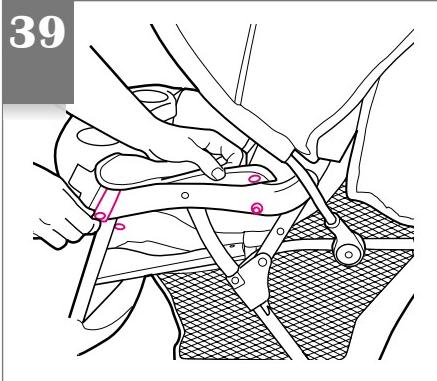

En ciertos modelos hay dos juegos de trabas, para permitir que el asiento se recline en dos posiciones. El transportador puede colocarse por debajo de la traba inferior o entre las dos trabas. **SIEMPRE TRABE LAS TRABAS SOBRE EL TRANSPORTADOR.**

38

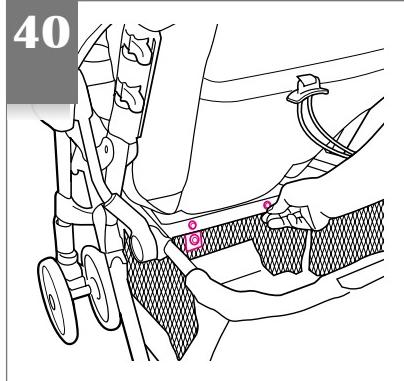

- To remove carrier: unlock latches above carrier, squeeze release handle at back of carrier, and lift carrier out of the stroller. When carrier is not in use, latches should be in unlocked position, away from baby.
- Pour enlever le porte-bébé, déverrouillez les loquets de sûreté au dessus du porte-bébé, pressez la poignée de dégagement à l'arrière du porte-bébé, et enlevez le porte-bébé de la poussette. Quand le porte-bébé n'est pas utilisé, les loquets de sûreté doivent être déverrouillés, loin de bébé.
- Para quitar el transportador: abra los cierres arriba del transportador; apriete la manivela de soltar en la parte trasera del transportador, y levante el transportador del cochecito. Cuando el transportador no esté en uso, los cierres deben estar en la posición abierta, fuera del alcance del bebé.

GRACO®

Thank you for your purchase of a Graco product. Your input regarding this product is very important to us.

Return this card today to:

1 REGISTER YOUR PRODUCT

We will keep the model number, serial number, and date of purchase of your Graco product on file.

2 RECEIVE FUTURE INFORMATION

By returning this card, you will help us to notify you of any issues concerning this product.

3 HELP US DEVELOP NEW PRODUCTS

We value your input. Your responses will help us develop new products specifically designed to meet your needs.

DETACH HERE BEFORE MAILING

1.0 Registration Information

Model Number:

Serial Number:

Purchase Date:

1.1 Register Your Infant Restraint

Please fill in the above information. The **model and serial numbers** can be found on a label underneath your infant restraint. Fill out the prepaid registration postcard attached to the seat cover and mail it today.

Child restraints could be recalled for safety reasons. You must register this restraint to be reached in a recall. **Send your name, address and model/serial numbers to:**

Graco Children's Products Inc.
P.O. Box 100
Elverson, PA, 19520-9974
or call 1-888-224-6549

1.2 Recall Information

- Call the U.S. Government's Auto Safety Hotline at 1-800-424-9393 (202-366-0123 in D.C. area)
- www.nhtsa.dot.gov
- Graco: 1-888-224-6549 or www.gracobaby.com

1.3 If You Need Help

In the U.S.A. or Canada, please contact our Customer Service Department with any questions you may have concerning parts, use, or maintenance. When you contact us, please have your product's **model and serial numbers** ready so that we may help you efficiently. These numbers can be found on a sticker on the underside of your infant restraint.

USA: 1-888-224-6549 or www.gracobaby.com

Canada: 1-800-667-8184 Montreal: 514-344-3533

2.0 Features and Components

Each model of the infant restraint comes with different harness and base options. **To adjust your infant restraint properly, it is very important to follow the instructions that are appropriate for the model you have purchased.**

3-Point Harness

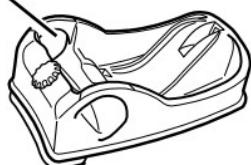

OR

5-Point Harness

Vehicle belt path
OR

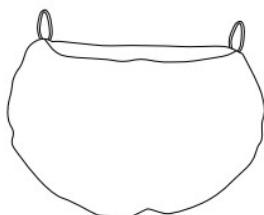

Adjustable Base

Vehicle belt path
OR

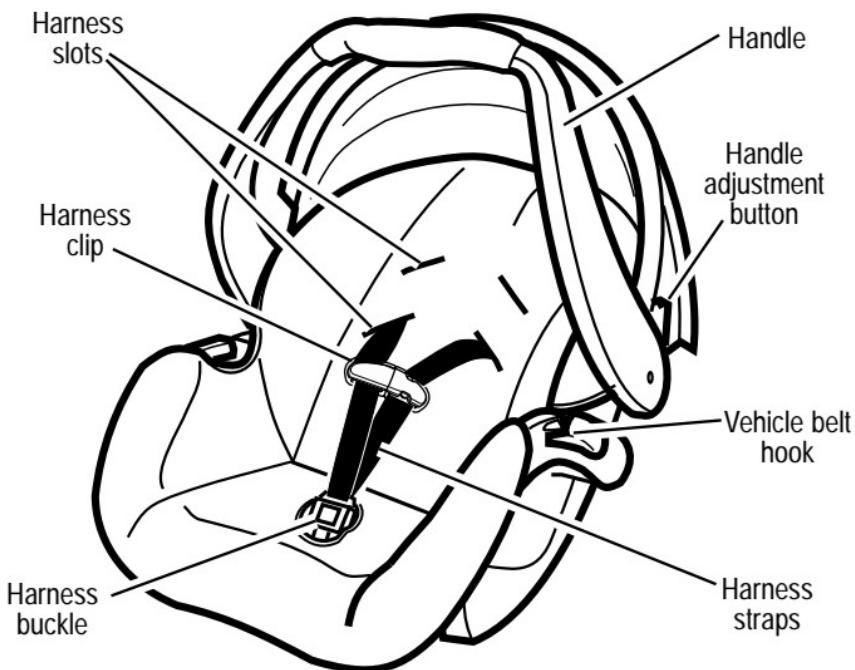

Non-Adjustable Base

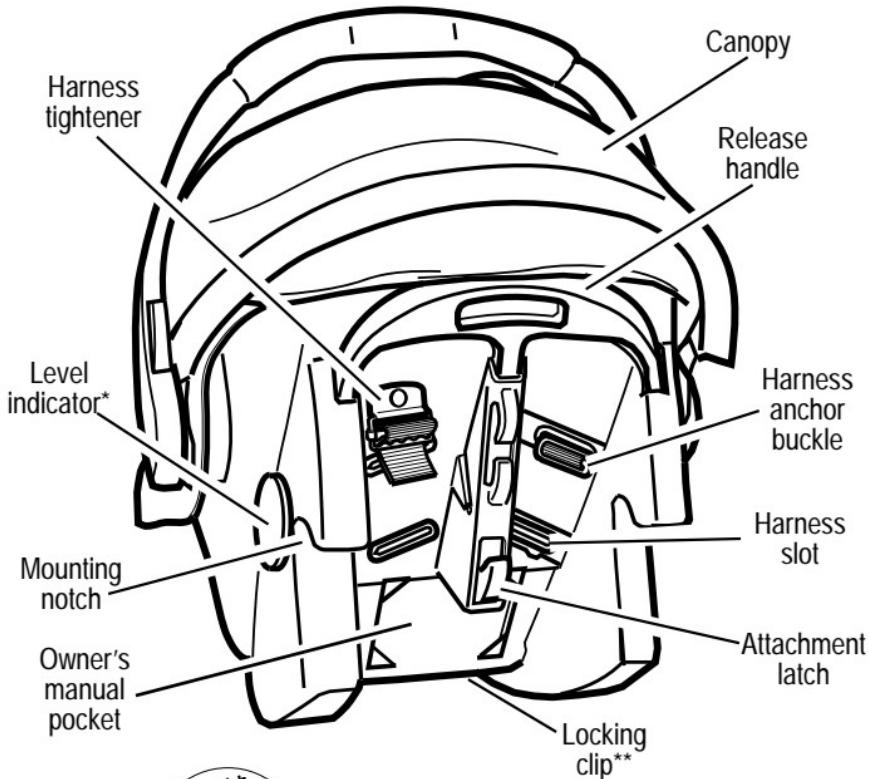

Boot
(on certain models)

2.1 3-Point Harness Model

FRONT VIEW: 3-POINT HARNESS

REAR VIEW: 3-POINT HARNESS

*Level Indicator

The level indicator is attached to the side of the infant restraint, and indicates whether or not the infant restraint is properly reclined.

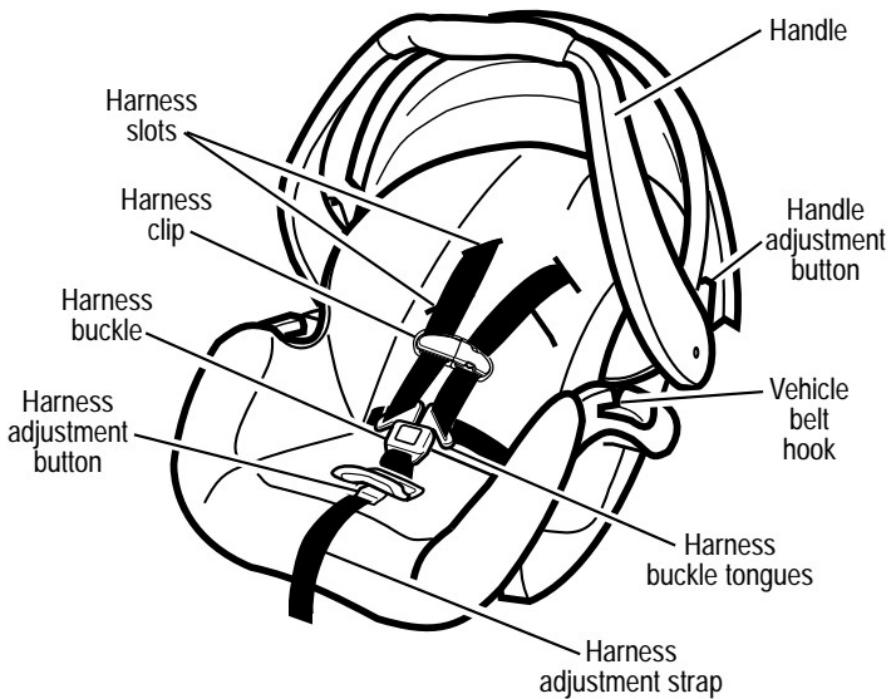

**Locking Clip

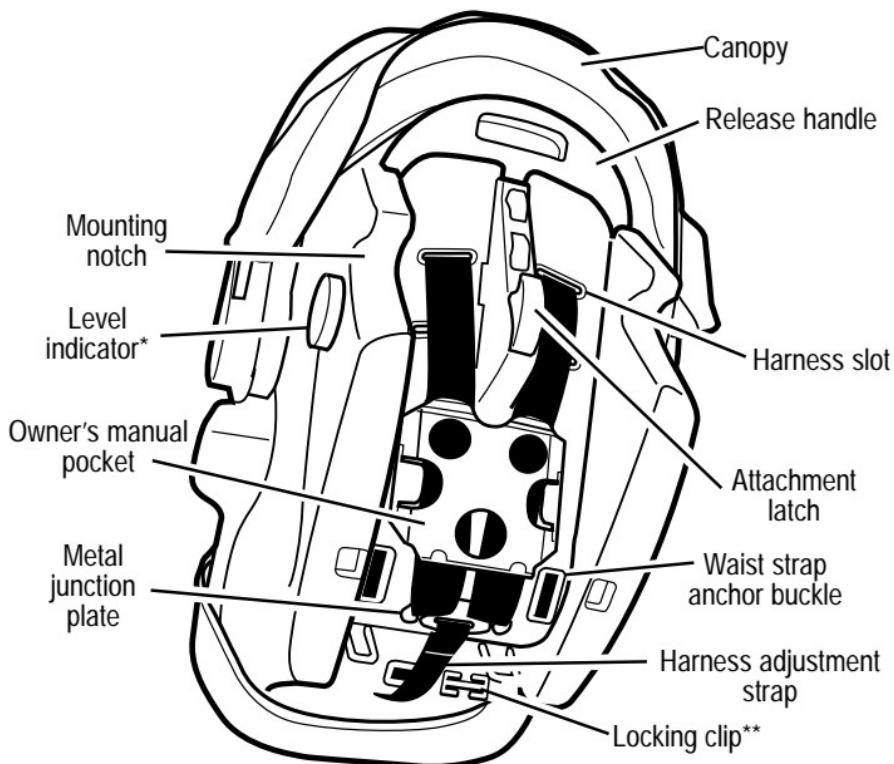

The locking clip is stored on the bottom of the infant restraint. You will need to use it with certain types of vehicle seat belts.

2.2 5-Point Harness Model

FRONT VIEW: 5-POINT HARNESS

REAR VIEW: 5-POINT HARNESS

*Level Indicator

The level indicator is attached to the side of the infant restraint, and indicates whether or not the infant restraint is properly reclined.

**Locking Clip

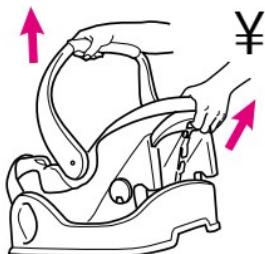

The locking clip is stored on the bottom of the infant restraint. You will need to use it with certain types of vehicle seat belts.

2.3 Removing and Attaching Base

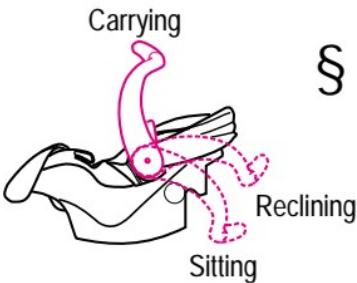

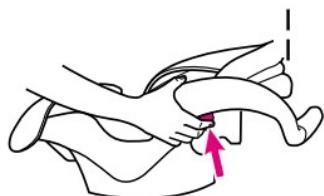

To remove infant restraint, squeeze handle at back of seat and lift infant restraint from base as shown ¥.

To put infant restraint in base, push infant restraint down until it clicks into base. Pull up on infant restraint to be sure it is latched firmly into base.

2.4 Adjusting Handle

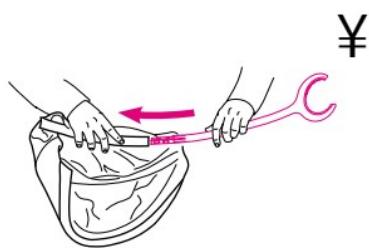

1. Press handle adjustment buttons on both sides of handle | .
2. Rotate handle until it clicks into any of three positions (for carrying, reclining, or sitting). **BOTH** handle adjustment buttons must pop out to lock handle in place § .
3. Push and pull on the handle to be sure it is locked firmly in position.

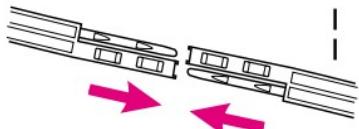

2.5 Attaching Canopy

1. Infant restraint comes with four (two on certain models) identical canopy support parts.

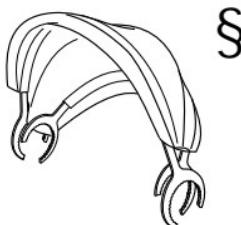

Thread one canopy support completely through one sewn tunnel ¥ .

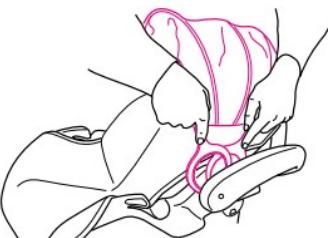

2. Slide straight end of a second support into the straight end of the first support ! .

3. On models with four canopy supports, repeat steps one and two for the other canopy tunnel. The canopy should appear as shown § .

4. Attach canopy in the areas between the infant restraint and the handle base ..

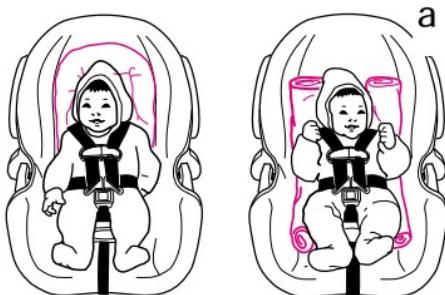

2.6 Head Support (on certain models)

Some infants may need extra support to keep their head and body in a comfortable position. Unsnap the sides and resnap them with the harness straps threaded through the slots in the cushion ©.

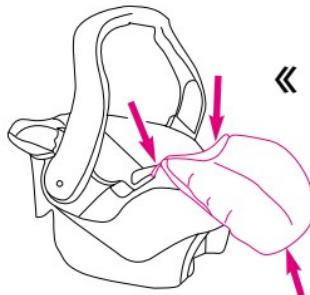

If your model does not include a head support, you may want to use a rolled towel or a blanket for support ^a. **MAKE SURE THAT NOTHING INTERFERES WITH THE HARNESS.** It must still be flat and snug against your child's shoulders.

2.7 Cold Weather Boot (on certain models)

Some models come with a cold weather boot. To use, wrap elastic around bottom of seat and place both elastic loops around vehicle belt hooks as shown « .

3.0 Important Information

3.1 Warnings for Use as Infant Restraint

⚠ WARNING

- DO NOT INSTALL OR USE THIS INFANT RESTRAINT AND BASE UNTIL YOU READ AND UNDERSTAND THE INSTRUCTIONS IN THIS MANUAL AND IN YOUR VEHICLE OWNER'S MANUAL.** DO NOT let others install or use the infant restraint unless they understand how to use it.
- FAILURE TO PROPERLY USE THIS INFANT RESTRAINT AND BASE INCREASES THE RISK OF SERIOUS INJURY OR DEATH IN A SUDDEN STOP OR CRASH.** Your child can be injured in a vehicle even if you are not in a crash. Sudden braking and sharp turns can injure your child if the infant restraint is not properly installed or if your child is not properly secured in the infant restraint.
- PLACE THIS INFANT RESTRAINT IN A REAR-FACING POSITION** when using it in the vehicle.
- NEVER PLACE THIS INFANT RESTRAINT IN A VEHICLE SEATING LOCATION THAT HAS AN AIR BAG.** If an air bag inflates, it can hit the infant restraint with great force and cause serious injury or death to your child. Refer to your vehicle owner's manual for information about air bags and infant restraint installation.

- **SOME SPECIAL NEEDS CHILDREN**, such as pre-term babies or those who have tested positive for positional apnea, may be at increased risk of suffering breathing or other difficulties in an infant restraint. If your child has special needs, we recommend that you have your physician or hospital staff evaluate your child and recommend the proper infant restraint or car bed before using this product.
- According to accident statistics, **CHILDREN ARE SAFER WHEN PROPERLY RESTRAINED IN REAR VEHICLE SEATING POSITIONS, RATHER THAN FRONT SEATING POSITIONS.** For a vehicle with a front passenger air bag, refer to your vehicle owner's manual as well as these instructions for infant restraint installation.
- **NEVER LEAVE YOUR CHILD UNATTENDED.**
- **NEVER LEAVE AN INFANT RESTRAINT AND BASE UNSECURED IN YOUR VEHICLE.** An unsecured infant restraint can be thrown around and may injure occupants in a sharp turn, sudden stop or crash. Remove it or make sure that it is securely belted in the vehicle.
- **REPLACE THE INFANT RESTRAINT AND BASE AFTER AN ACCIDENT OF ANY KIND.** An accident can cause damage to the infant restraint that you cannot see.
- **STOP USING INFANT RESTRAINT AND BASE AND THROW IT AWAY** after the date molded into the underside of the infant restraint.
- **DO NOT MODIFY YOUR INFANT RESTRAINT AND BASE** or use any accessories or parts supplied by other manufacturers.

- **NEVER USE INFANT RESTRAINT AND BASE IF IT HAS DAMAGED OR MISSING PARTS.** DO NOT use a cut, frayed or damaged infant restraint harness or vehicle seat belt.
- **THE INFANT RESTRAINT CAN BECOME VERY HOT IF LEFT IN THE SUN.** Always touch the surface of any metal or plastic parts before putting your child in the infant restraint.
- **THIS CHILD RESTRAINT CONFORMS** to all applicable Federal Motor Vehicle Safety Standards and is certified for use in motor vehicles and aircraft.
- **NEVER GIVE THIS INFANT RESTRAINT AND BASE** to someone else without also giving them this manual.
- **NEVER USE A SECOND-HAND INFANT RESTRAINT AND BASE** or an infant restraint whose history you do not know.

3.2 Warning for Use With a Stroller

- **USE ONLY WITH STROLLERS THAT ARE PART OF THE GRACO OR CENTURY TRAVEL SYSTEM.** Refer to stroller instruction sheet for details about how to attach the infant restraint to your stroller. If you do not have an instruction sheet, please call toll-free, 1-888-224-6549 to obtain one, or visit our website, www.gracobaby.com.

3.3 Additional Warnings for Use as Carrier

⚠ WARNING

- **FALL HAZARD:** Child's movements can slide carrier.
NEVER place carrier near edges of countertops, tables or other high surfaces. Always stay within arms reach whenever carrier is not on floor/ground.
BE SURE handle locks into position before lifting carrier.
NEVER place carrier in the top of a shopping cart.
- **SUFFOCATION HAZARD:** Infant Carrier can roll over on soft surfaces and suffocate child. Never place carrier on beds, sofas or other soft surfaces.
- **STRANGULATION HAZARD:** Child can strangle in loose restraint straps. Always use harness, never leave child in carrier when straps are loose or undone.
KEEP STRINGS AND CORDS AWAY FROM CHILD. Strings and cords can cause strangulation.
DO NOT place carrier near a window where cords from blinds or drapes can strangle a child.
DO NOT hang strings on or over the carrier.
DO NOT place items with a string around a child's neck, such as hood strings, pacifier cords, etc.
DO NOT attach strings to toys.

3.4 Height and Weight Limits

⚠ WARNING

FAILURE TO USE INFANT RESTRAINT IN A MANNER APPROPRIATE FOR YOUR CHILD'S SIZE MAY INCREASE THE RISK OF SERIOUS INJURY OR DEATH.

Your child MUST meet all requirements:

- WEIGHT: 20 lbs. (9 kg) or less
- HEIGHT: 26 inches (66 cm) or less

4.0 Infant Restraint Location

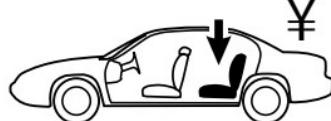

4.1 Vehicle Seat Requirements

WARNING

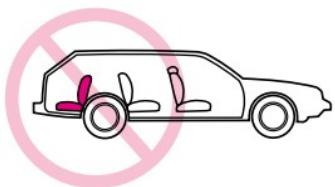

**IMPROPER PLACEMENT OF THE INFANT RESTRAINT
INCREASES THE RISK OF SERIOUS INJURY OR DEATH.**

Some seating positions in your vehicle may not be safe for this infant restraint. Some vehicles do not have any seating positions that can be used safely with the infant restraint. If you are not sure where to place the infant restraint in your vehicle, consult your vehicle owner's manual or Graco Children's Products Inc., 1-888-224-6549.

- Whenever possible, secure the infant restraint in the center position of the seat directly behind the front seats. An adult should ride in the rear seat to watch the child. If the driver is the only adult present, a child may need to ride in the front seat. **BUT ONLY** if there is no passenger-side air bag and all of the other vehicle seat and seat belt requirements listed are met.
- NEVER place this infant restraint in a vehicle seating location that has an air bag. See "3.1 Warnings for Use as Infant Restraint", p.14.

- The VEHICLE seat must face forward.

- DO NOT use infant restraint on vehicle seats with seat backs that will not lock in an upright position. DO NOT use seats that can fold down without having to release a lock or latch of some kind. These seats can fly forward and strike the child in a sudden stop or crash.

4.2 Vehicle Seat Belt Requirements

⚠ WARNING

MANY SEAT BELT SYSTEMS ARE NOT SAFE TO USE WITH THE INFANT RESTRAINT. THE VEHICLE SEAT BELT MUST BE DESIGNED TO HOLD THE INFANT RESTRAINT TIGHTLY AT ALL TIMES.

Pay careful attention to these systems; some of the seat belts that are not safe to use look very much like seat belts that are safe to use. If you are unsure, consult your vehicle owner's manual or Graco Children's Products Inc., 1-888-224-6549.

4.2.1 UNSAFE Vehicle Belt Systems

DO NOT use any of the following systems to secure the infant restraint.

- Lap Belts with Emergency Locking Retractor (ELR)**

This lap belt stays loose and can move until it locks in a crash or sudden stop.

- Combination Lap/Shoulder Belt with Retractor**

Each strap has a retractor at one end and is attached to the latch plate at the other end.

- Passive Restraint - Lap Belt with Motorized Shoulder Belt**

- Passive Restraint - Lap or Shoulder Belt Mounted on Door**

DO NOT use vehicle belts that are attached to the door in any way or that move along a track to automatically surround the passenger when the door is closed.

- Lap Belts Forward of Seat Crease**

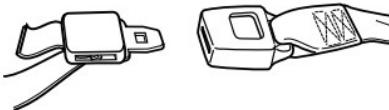

4.2.2 SAFE Vehicle Belt Systems

THE FOLLOWING BELT SYSTEMS CAN BE USED WITH YOUR INFANT RESTRAINT, IF the seat location meets all other requirements of these instructions and those in your vehicle owner's manual.

- Lap Belts - Manually Adjusted**

When buckled, the belt is tightened manually by pulling on the excess belt while pushing down hard on the infant restraint.

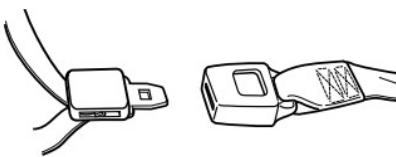

- Lap Belts with Automatic Locking Retractor (ALR)**

The automatic locking retractor will not permit the lap belt to lengthen once it is buckled. Tighten the belt by feeding the belt back into the retractor while pushing down hard on the infant restraint.

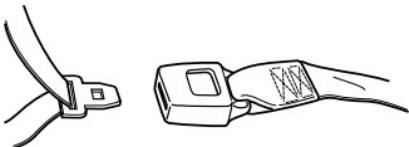

- Combination Lap/Shoulder Belt with Locking Latch Plate**

Once it is buckled, this type of belt has a latchplate that will not allow the lap portion of the belt to loosen. Belt is tightened by pulling hard on the shoulder portion of the vehicle belt while pushing down hard on the infant restraint.

- **Combination Lap/Shoulder Belt with Sliding Latch Plate**

This belt has a latchplate that slides freely along the belt.

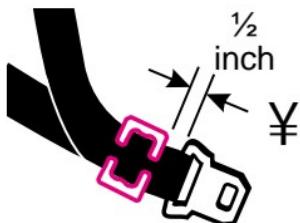

This belt **MUST** be converted to prevent movement of the lap portion of the belt. You must use the **locking clip** provided with the infant restraint, unless your vehicle's seat belt can be converted in another way as described in your vehicle owner's manual.

To Install Locking Clip:

1. Tighten the buckled belt by pushing down hard on the infant restraint and pulling hard on the shoulder belt.
2. While pushing down on infant restraint, pinch the two straps together behind the buckle tongue. Unbuckle the belt without allowing it to slip.
3. Connect lap and shoulder belts with locking clip as shown ¥ and l .
4. Rebuckle belt. Check that lap belt does not move by pulling and pushing hard on infant restraint. If belt loosens or lengthens, repeat procedure.

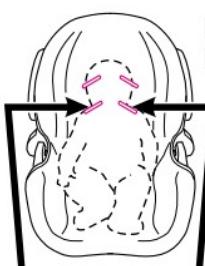

Locking clip goes here,
 $\frac{1}{2}$ inch from the buckle

5.0 Using Infant Restraint

5.1 Positioning Harness Straps

WARNING

FAILURE TO PROPERLY ADJUST THE HARNESS STRAPS FOR YOUR CHILD INCREASES THE RISK OF SERIOUS INJURY OR DEATH IN THE EVENT OF A SHARP TURN, SUDDEN STOP OR CRASH. The harness straps must be properly adjusted to fit your child according to the following instructions.

1. Remove infant restraint from base and rotate handle down to sitting position. See "2.3 Removing and Attaching Base" and "2.4 Adjusting Handle", p. 11.
2. Place child in infant restraint as shown  .
3. Determine which pair of harness slots are even with or just below your child's shoulders  .

DO NOT use upper harness slots if they are above your child's shoulders. They will not hold a small child securely in a sudden stop or crash.
4. If the harness straps must be adjusted: remove child from infant restraint and follow directions for your type of harness system:

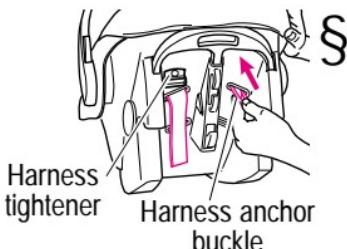

5.1.1 3-Point Harness - p. 25

5.1.2 5-Point Harness - p. 26

Use harness slots even with or just below child's shoulders

5.1.1 3-Point Harness

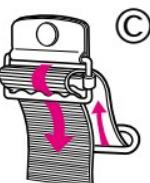

- From back, push harness anchor buckle back through harness slot. If necessary, from front, use harness strap to pull buckle from slot § .

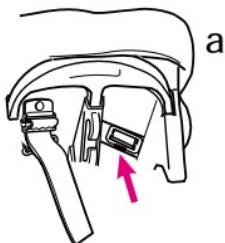

- Reinsert harness anchor buckle in the appropriate slot " " .

- From back, remove harness strap from harness tightener. If necessary, from front, use harness strap to pull strap from slot.

- Reinsert strap in the appropriate slot. Thread strap through tightener exactly as shown © .

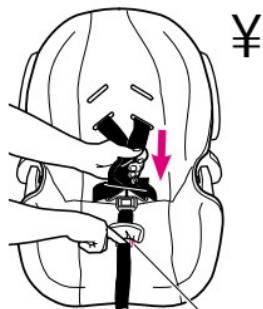

5. SAFETY CHECK:

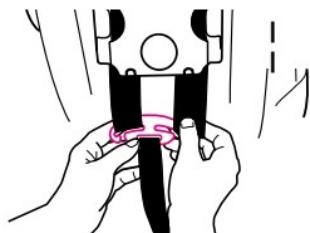

- CHECK that straps are not twisted;
- CHECK that straps are secure: pull on harness straps from front.
- CHECK that harness anchor buckle is snapped flat against back as shown ^a .

5.1.2 5-Point Harness

1. Depress the harness adjustment button under the seat flap ¥ . Pull the shoulder straps out to loosen the harness .
2. Behind seat, remove the ends of the two shoulder straps from the metal junction plate | .
3. From front, pull straps through the harness slots and then reinsert them through the appropriate slots.
4. Behind seat, push both shoulder straps **UNDER** owner's manual pocket and out the bottom.
5. Reassemble the strap ends onto the metal junction plate | . **Follow the appropriate instructions for a smaller or larger baby on the following page.**

Harness adjustment button

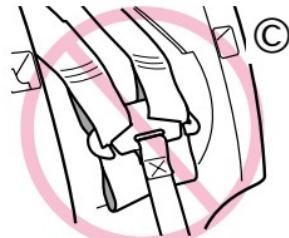

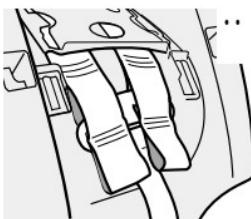

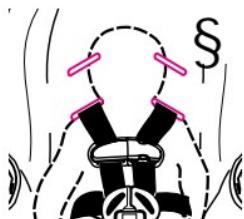

6. SAFETY CHECK:

After the harness has been completely reinstalled,

- a) **CHECK** that harness straps are not twisted in front or back.
- b) **CHECK** that straps are secure by pulling on them.

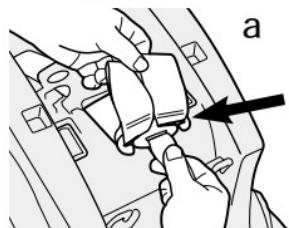

FOR SMALLER BABY:

Use the lower harness slots § (if they are even with or just below your child's shoulders) and the upper strap loops " . The ends of the straps must hang in front of the metal plate as shown in " , not as shown in © .

CHECK that the loops are completely within junction plate slots ^a .

CHECK that straps are secure by pulling on them.

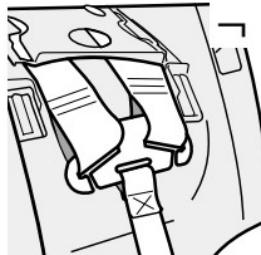

FOR LARGER BABY:

Use upper harness slots and the end strap loops « .

CHECK that the loops are completely within junction plate slots « .

CHECK that straps are secure by pulling on them.

5.2 Securing Child in Infant Restraint

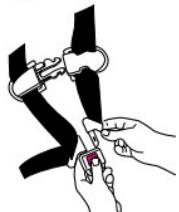

WARNING

Failure to properly secure your child in the infant restraint/carrier increases the risk of serious injury or death from suffocation or falls, or in the event of a sudden stop or crash. Even when used only as a carrier, make sure the harness straps are properly secured.

1. Move infant restraint handle to sitting position (see page 11).
2. Open harness clip by squeezing both sides and unbuckle as shown  .
3. Place your child in the infant restraint as shown in  , not  . Pull the harness straps down over your child.
4. Follow directions for your harness:
5.2.1 3-Point Harness: p. 29
5.2.2 5-Point Harness: p. 30

OR

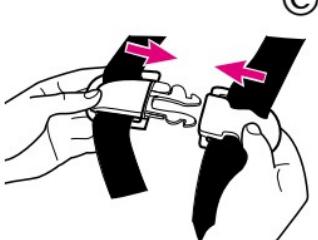

5.2.1 3-Point Harness

5. Buckle harness to the latch between child's legs. Make sure that you hear a "click."

DO NOT use the infant restraint if the harness does not latch in place. Call Graco at 1-888-224-6549.

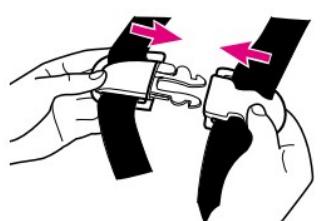

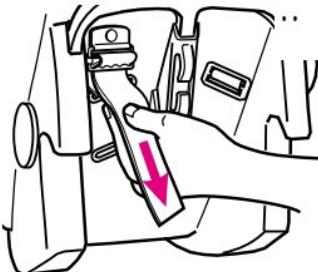

6. From the back, pull strap through harness tightener to tighten the straps as shown  . **CHECK** that **both** straps are flat and tight on child's shoulders.

7. Snap harness clip pieces together  . Position harness clip in middle of chest, level with armpits and away from the neck ^a .

8. SAFETY CHECK:

- a) **CHECK** that harness straps are not twisted.

- b) **CHECK** that the harness is snug. You should not be able to insert more than one finger between the harness and your child's shoulder ^a .

5.2.2 5-Point Harness

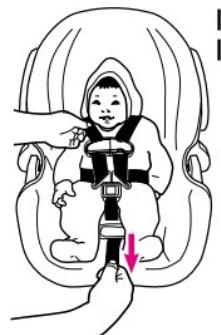

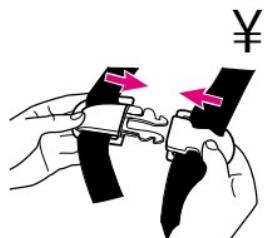

5. Insert the two buckle tongues into the harness buckle on the crotch strap. **Make sure that you hear each tongue click into the buckle.**

DO NOT use the infant restraint if the harness does not latch in place. Call Graco at 1-888-224-6549.

6. Snap harness clip pieces together ¥ .
7. Pull on harness adjustment strap to tighten straps as shown | . **CHECK** that both straps are flat and tight on shoulders.
8. Position harness clip in middle of chest, level with armpits and away from the neck § .

9. SAFETY CHECK:

- a) **CHECK** that harness straps are not twisted.
- b) **CHECK** that the harness is snug. You should not be able to insert more than one finger between the harness and your child's shoulder § .

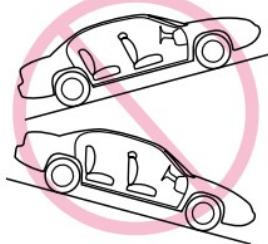

5.3 Installing the Infant Restraint/Base

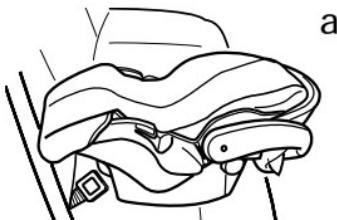

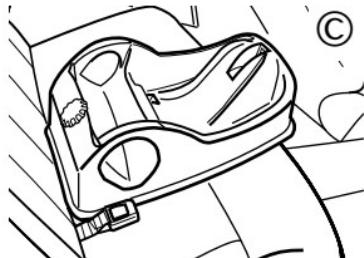

You must carefully follow the instructions provided by your vehicle manufacturer, in addition to the information in this manual. Be sure you have read and understood section 4, "Infant Restraint Location" on p.19-23.

Make sure vehicle is on level ground so that the level indicator, which is attached to the infant restraint, can be used to properly recline the infant restraint .

If a front passenger seat is used, slide the vehicle seat rearward as far as possible from the dashboard. If a rear seat is used, make sure the seat in front of it is moved forward enough and is upright enough to allow room for the infant restraint.

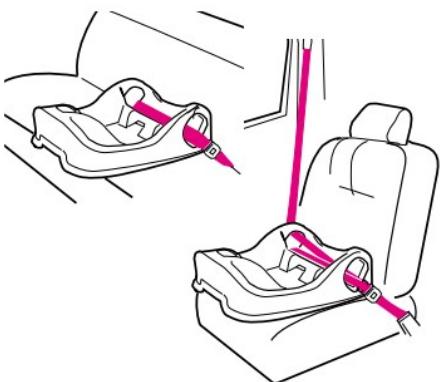

1. Remove infant restraint from base, regardless of whether or not you plan on using the base.
2. Place the base © or infant restraint ^a in a rear-facing position in a forward-facing vehicle seat.

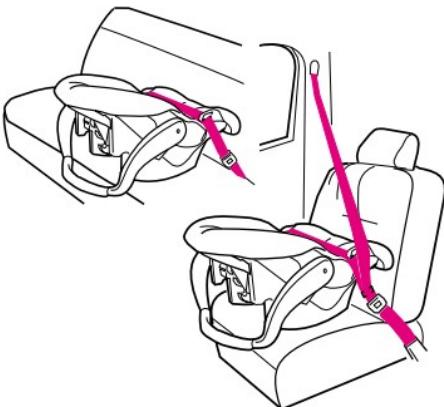

3. Thread the seat belt through the openings in the base or seat:

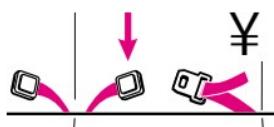

Base and infant restraint

Infant restraint only

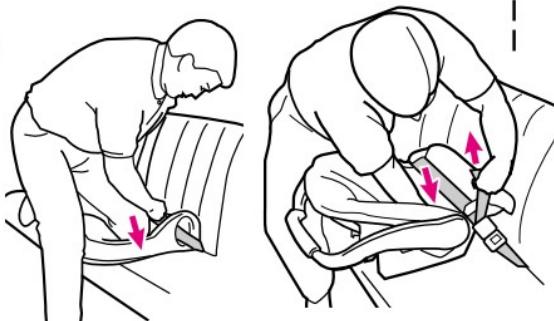

4. Buckle the seat belt. Make sure the buckle tongue goes into the correct buckle ¥. **The seat belt should not be twisted.**

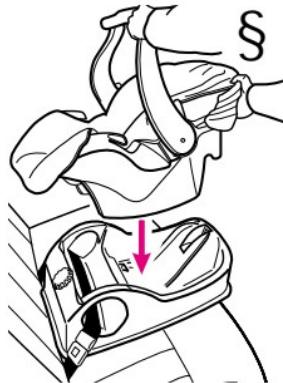

5. Tighten the vehicle seat belt. Refer to your vehicle owners manual and the instructions in "4.2.2 SAFE Vehicle Belt Systems", p. 22-23, on tightening your vehicle belt.

To create a very tight installation, push down hard with your knee or free hand in the middle of the infant restraint or base ! and pull and tighten the vehicle belt.

6. Push the infant restraint down into the base and make sure that you hear a "click" § . Pull up on the infant restraint to be sure it is latched securely into the base.

If the infant restraint does not securely latch into the base, the infant restraint provides NO protection for your child. **DO NOT** use the infant restraint/base if the infant restraint does not securely latch into the base.

5.4 Reclining Infant Restraint/Base

For your child's safety, it is important that your infant restraint/base be properly reclined. Attached to the side of your infant restraint is a level indicator to help properly recline the infant restraint/base on the vehicle seat.

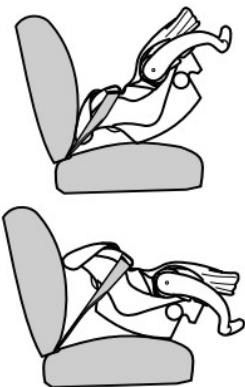

⚠ WARNING

Failure to properly recline the infant restraint on the vehicle seat increases the risk of serious injury or death.

If the infant restraint is too upright, a child's head may drop forward and cause breathing problems.

If the infant restraint is too reclined, a crash could put too much force on a child's neck and shoulders.

The infant restraint must be properly reclined according to the following instructions.

Check the level indicator. You must look straight on at the indicator.

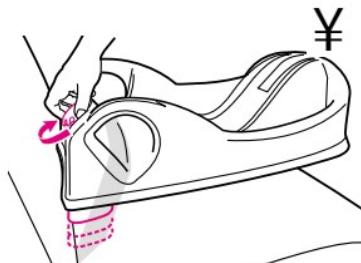

- If the indicator shows ONLY blue, the infant restraint is properly leveled.
- If any orange is showing in the level indicator adjust the recline.

5.4.1 Adjustable Base

Loosen the base by releasing the seat belt to access the recline adjustment knob.

If the infant restraint is too upright, turn the knob clockwise to increase the recline  . If you still need more recline after the adjustment foot is completely extended, place rolled towels under foot until indicator shows ONLY blue.

If the infant restraint is too reclined, retract the adjustment foot into the base by turning the knob counterclockwise or shift infant restraint manually to decrease the recline.

Use adjustment knob
to change recline

5.4.2 Non-Adjustable Base

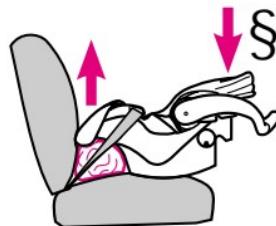

If any orange is showing in the level indicator, the safety seat/base is either too upright or too reclined. If the safety seat/base is too upright, place rolled towels as shown until indicator shows ONLY blue  . If the safety seat is too reclined, shift infant restraint as shown until indicator shows ONLY blue  .

5.4.3 Without Base

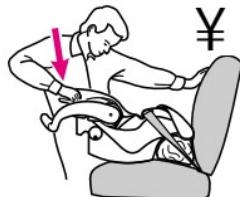

When using only the infant restraint, if there is still orange in the level indicator when the infant restraint is resting on the vehicle seat then place a rolled towel under the infant restraint until ONLY blue shows § .

Readjust the vehicle seat belt as necessary to secure the infant restraint firmly in the vehicle seat.

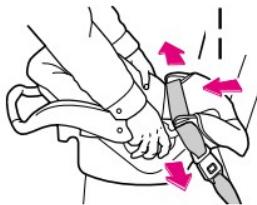

Final Safety Check: Every time you drive with your child,

PUSH DOWN on the top of the infant restraint slowly but firmly to make sure the vehicle belt does not lengthen at all and that the vehicle belt is fastened very tightly around the infant restraint/base ¥ .

Holding the infant restraint near the vehicle belt path, TWIST AND PULL the seat forward and to both sides to make sure the vehicle belt does not lengthen or loosen and the infant restraint does not easily move ! .

After placing your child in the infant restraint, recheck the level indicator on the side of the infant restraint. The level indicator should show ONLY blue—if you still see orange, re-adjust the recline.

6.0 Additional Information

6.1 Airplane Use

Install in an airplane the same way as in an automobile. Notify the airline ahead of time that you intend to bring the seat on board.

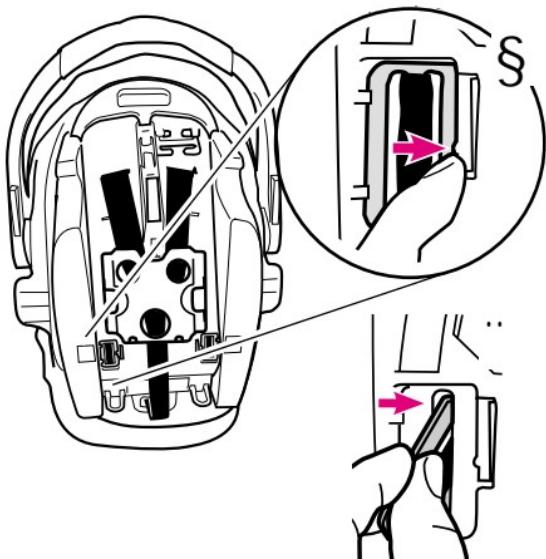

Use only in forward-facing aircraft seat. Follow the flight attendant's instructions about infant restraint placement. Do not use this infant restraint if the airplane seat belt does not hold the infant restraint tightly.

6.2 Cleaning and Maintenance

- TO REMOVE AND WASH INFANT RESTRAINT PAD, follow instructions in "5.1 Positioning Harness Straps", p. 24-26.

On 5-point harness models, push aside the small tab that holds the anchor buckles in place § and pull the anchor buckles out of their indentations. Push a corner of each anchor buckle back into its slot .. .

Carefully remove the seat pad. Machine wash on delicate cycle and drip-dry. DO NOT USE BLEACH.

Reverse steps to reinstall seat pad. **Check** that harness system is not twisted, and pull on harness system to be sure harness is securely reinstalled.

- **INFANT RESTRAINT METAL AND PLASTIC PARTS** may be cleaned by wiping with a mild soap and water solution. DO NOT USE BLEACH. Use of bleach may weaken plastic parts.
- **HARNESS STRAPS** may be spot cleaned or replaced. DO NOT IMMERSE THE HARNESS STRAPS IN WATER. Doing so may weaken the harness straps.
- **BUCKLE** may be cleaned with a damp cloth.
- **DO NOT LUBRICATE** the buckle.
- **DO NOT USE INFANT RESTRAINT** without seat pad.

How to Order:

Complete the form that follows. Your infant restraint model and serial numbers MUST be included on the form to ensure proper replacement parts. Your model number can be found on a sticker on the underside of your infant restraint. Payment must accompany your order.

Parts may also be ordered from Graco's web site at www.gracobaby.com.

Parts List:

Seat pad	\$20.00
Canopy	\$17.00
Canopy bow	\$ 5.00
3-point harness*	\$10.00
5-point harness*	\$10.00
Harness clip	\$ 5.00
Locking clip	\$ 5.00
Head support*.....	\$ 8.00
Adjustable base*.....	\$30.00

* On certain models
